SUMMARY

An intrigued freelancer started my work in content marketing, social media management and digital advertising in several startups, during which I got accustomed to design and gradually became the head of graphic design. Experiencing graphic design, I got familiar with Adobe After Effects and the world of Motion Graphics. Created a wide variety of motion graphic content consisted of but not limited to, product promos, explainer and infographic videos and social media video content. Now I am working in this field and I am eager to enhance my skills and work with great companies and esteemed institutions.
